REMARKS

In response to the Restriction Requirement of March 14, 2006, Applicants hereby elect Claims 21-28 corresponding to Invention II, drawn to a product. Applicants have canceled Claims 1-20 corresponding to Invention I, drawn to a process of making the product. This cancellation is being made without prejudice to the filing of a divisional application for these claims and/or other claims. Applicants are not traversing the restriction requirement because Applicants agree that unpatentability of Invention I would not necessarily imply unpatentability of Invention II.

In view of the above, Applicants respectfully request favorable examination and allowance of Claims 21-28.

Respectfully submitted,

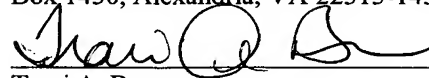

David C. Hall
